

Internet and Email Services - Join the information highway

Crosshill Computing Services can provide tailored internet and email solutions for a wide range of uses. Whether it be for a single workstation with POP email or a multiple user site, hosting its own mail server we have the right solution. We can also organise domain name registration, hosting and mail forwarding.

We can:

- Advise on internet connectivity - SDSL/ADSL/3G/Dial-up
- Provide domain registration and hosting facilities
- Setup webmail access facilities and management
- Setup SMTP mail forwarding direct to your mail server(s)
- Install Microsoft Exchange server with email/calendar/contact/task and web access
- Build customised solutions upon clients requirements.

Previous Experience and Clients

We have provided internet and email services for a range of clients. These include:

- Antrim Estates Company - Reconciliation of multiple domains and hosting services
- B9 Organic Energy - Microsoft Exchange server installation and configuration
- BPM Lettings - Broadband supply and configuration
- Smyth Hastings - Domain registration and hosting services including webmail
- Whiteford Geoservices - Microsoft Exchange server installation and configuration.
