

Office Relocation - Moving the simple way

Crosshill Computing Services offers a range of business relocation and computer logistic services. Whether you are moving to new premises or reorganising your current office, we can organise and manage all IT aspects of your relocation providing you with technical peace of mind.

We can:

- Provide full IT relocation pre/post project management
- Carry out an asset audit and provide an inventory report
- Perform system removal, delivery and re-installation
- De-rack/re-rack and relocate servers
- Recommission IT equipment and test
- Recycle and dispose of redundant IT equipment.

Previous Experience and Clients

We have provided office relocation services for a range of clients. These include:

- BPM Services - Planning and implementation of two remote offices
- MTA Process Components - Planning and implementation of full IT systems relocation
- Whiteford Geoservices - Planning and implementation of full IT systems relocation.
